Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner stated that claims 13-14 appear to be in a condition for allowance given the prior art of record. Examiner also outlined the basic points of a potential rejection of the remaining claims using U.S. Patent 6,477,670 to Ahmadvand. Examiner proposed cancelling all claims but 13 and 14 to put the application in condition for allowance. Mr. Kimble indicated that he would prefer to receive another office action than to cancel all pending claims but 13 and 14 via an examiner's amendment.

After our discussion on Monday, November 29, the examiner reconsidered the original rejection and consulted with Seema Rao (Supervisory Patent Examiner) and determined that the original rejection should be maintained to the remaining claims. The rejection based on the reference cited above is not necessary at this time. Examiner telephoned Mr. Kimble on Thursday, December 2 and confirmed that he would still prefer to have the advisory action sent at this time..
